Notes:

¹ Configuration Setting U0 = LED normally red, reader flashes green on tag reads.

² Consult Factory

³ Proximity cards and keytags included in kits will be programmed with HID's 37-bit Wiegand format (H10302).

HID tracks the issuance of this format and does not duplicate numbers. Numbers will be issued in random order.

⁴ Infrared Printer and Printer Paper can be used with previously purchased 4045B EntryProx Models, which are no longer available.

⁵ The Palm PDA Software is only compatible with 4045C EntryProx Reader, and may be downloaded from the HID website at no charge (<http://www.hidcorp.com/downloads/entryproxdcd>).

The software can be loaded onto the PDA from the USB port of a PC-compatible computer or laptop.
