

HID® Livescan Adjustable Height Cabinet

Thoughtful design with flexibility and high reliability

The HID Livescan Adjustable Height Cabinet addresses customer's enrollment, booking and identity verification needs with improved ergonomics, added flexibility and an expanded feature set. The system accommodates most HID Guardian™ tenprint readers, as well as HID L Scan™ palm scanners.

Designed with law enforcement professionals in mind, the user control elements of the cabinet are arranged ergonomically. Capturing fingerprints, palm prints and textual data is an intuitive process that takes just a few moments. Through thoughtful design, the cabinet helps to streamline the criminal booking process and enhance officer safety.

The system includes an integrated flat-screen monitor with optional touch screen functionality. The large monitor conveniently

adjusts for optimal viewing and displays captured fingerprints in full resolution. Different monitor options are available, touch screen and rugged enclosure.

The cabinet is designed to provide ample workspace for documents or peripherals, such as signature capture solutions, barcode scanners or additional input devices.

Optional brackets are available to hold a bar code scanner and cameras. This would allow users to permanently install a video or still camera to capture mug shots in addition to scar, birthmark or tattoo images. A customizable system, the Adjustable Height Cabinet delivers value, ease of use and high reliability.

KEY BENEFITS

- Ergonomically designed to meet the needs of law enforcement professionals
- Provides secure protection for scanner, keyboard and PC
- Keyed lock
- User-friendly placement of control elements and consumable
- Durable, industrial-grade kiosk
