

HID SAFE™ Asset Manager

Associate physical items with identities to better protect company-issued assets

THE BUSINESS CHALLENGE

Across almost any office, campus or enterprise, security practitioners have a regular need to associate physical assets — metal keys, tokens, mobile phones, PCs, carts and more — with the identities population. Security practitioners would benefit greatly from an automated means to request, approve, issue and manage assets to increase the level of security, protection and inventory management.

THE SAFE SOLUTION: HID SAFE ASSET MANAGER

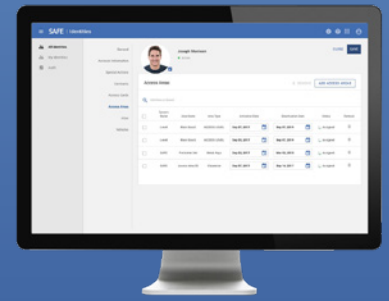

HID SAFE Asset Manager is designed to manage, track, and report on assets to identities across the identity lifecycle.

HID SAFE Asset Manager enables multiple physical assets to be assigned to a single identity. Assets can be easily tracked thanks to detailed lifecycle audit logs, as well as a self-service login which allows users to report assets as lost, stolen or missing. Physical items can now be managed on an identity-level.

FEATURES:

HID SAFE Asset Manager enables security practitioners to:

- Easily add physical assets to the system
- View and modify the attributes and status of an existing physical asset
- Automate the provisioning of physical assets to identities
- Track asset details such as serial number, date entered in system, date issued and date lost
- Look up physical assets based on attributes such as asset ID, type, category, status, and user profile
- Use ready-made or custom-built reports to gain a detailed view of asset issuance history, maintenance, statuses and inventory
- Quickly transfer ownership of a physical asset from one employee to another

KEY BENEFITS

- Attaches physical assets to identities to ensure compliance and lower both cost and risk
- Automates the provisioning of physical assets such as keys, carts, laptops, and mobile devices
- Searches for physical assets based on user-defined attributes
- Helps track lost/stolen/missing physical assets and automates the associated fee-payment process
- Enables efficient inventory management by providing asset owners with a holistic view of organizational assets and their statuses
- Ensures compliance by allowing asset owners or contract administrators to periodically review and confirm the assets that are issued to identities

USE CASES

Hazardous Waste Carts

Field Devices

Medical Carts

Food Service Carts

Vehicles

Metal Keys

MEETING THE UNIQUE NEEDS OF ALL ORGANIZATIONS

HID SAFE Asset Manager offers a simplified approach to manage assets related to identities for a wide variety of organizations and needs:

- **Global organizations** — HID SAFE Asset Manager can automate the provisioning of metal keys, mobile devices, handheld radios and vehicles — linking those assets to an identity for their entire lifecycle
- **Airports** — HID SAFE Asset Manager can associate carts such as food or janitorial carts with employees, vendors and contractors
- **Hospitals** — HID SAFE Asset Manager can link crucial and costly medical assets to identities, such as pharmaceutical carts, hazardous waste containment systems or mobile monitoring units
- **Petrochemical Facilities** — HID SAFE Asset Manager can also associate larger items such as tanker-trailers, ensuring that the correct haul/load is received and handled by the appropriate driver

A STRONGER BOTTOM LINE WITH ENHANCED ASSET MANAGEMENT

HID SAFE Asset Manager significantly impacts an organization's bottom line by reducing inventory and maintenance costs associated with the management of physical assets. Additionally, by better managing these key corporate assets, HID SAFE Asset Manager can help increase the economic life of equipment, reducing liability and increasing the reliability and efficiency of security operations throughout the facility.
