

HID® Reader Manager™ Mobile Application

SERVICE AND MANAGEMENT OF HID SIGNO, ICLASS SE & MULTICLASS SE READERS WITH YOUR SMARTPHONE

- **Adaptable** – Empowers reader administrators to manage reader configuration, diagnostics and firmware over Bluetooth via both iOS® and Android™ mobile devices.
- **Convenient** – Update HID Signo, iCLASS SE, multiCLASS SE readers in the field quickly, with real-time feedback.
- **Secure** – Simplifies the process of configuring readers for higher security.

The powerful HID Reader Manager mobile app is available to download for **FREE** from the Apple® App Store or Google® Play Store.

The HID® Reader Manager™ mobile application (app) streamlines management of readers in the field. Administrators can easily adjust configuration settings, upgrade firmware, inspect current reader status and extend functionality on supported HID Signo, iCLASS SE, iCLASS SE Express and multiCLASS SE readers.

HID Reader Manager is intuitive and easy to use, offering powerful configuration capabilities. Modify credential compatibility to complete migrations to secure and modern credential technologies, or simply personalize your readers to match building aesthetics by adjusting audio visual and keypad settings.

Connecting a legacy iCLASS SE Reader couldn't be easier, simply:

1. Download the HID Reader Manager mobile app to a mobile phone or tablet.
2. For non-bluetooth capable readers, insert an Bluetooth & OSDP Module.
3. For environments using HID Elite or HID Mobile Access®, to enable reader access, request key authorization for reader management from the end-user administrator.
4. Use the HID Reader Manager mobile app to connect to the appropriate reader via Bluetooth, configure reader features such as LED color, keypad output, credential keys or Bluetooth settings.
