The RF-programmable ProxCard® II proximity access card is the industry choice for a cost-effective solution to proximity access control.

**Features:**
- **Proven, Reliable Technology** - Offers extremely consistent read range. Unaffected by body shielding or variable environmental conditions, even when close to keys and coins.
- **Convenient To Use** - Can fit into a wallet or purse. Use with a strap and clip as a photo ID badge.
- **Cross-reference** - A cross-reference list correlating the external card number and the programmed ID number is provided for easy system administration.
- **Security** - Offers over 137 billion unique codes.
- **Long Life** - Passive, no-battery design allows for an infinite number of reads.
- **Durability** - Strong, flexible and resistant to cracking and breaking.
- **Companion Products** - 1321 Photo pouch overlay
  1324 PVC Direct print overlay

Using HID’s ProxProgrammer®, card vendors can ship ProxCard II proximity cards, custom programmed to their customers' requirements, from their own inventory. Enables smaller order quantities and overnight delivery. (Check with vendor for availability.)

The RF-programmable ProxCard® II proximity access card is the industry choice for a cost-effective solution to proximity access control.
