

HID® FARGO® HDP6600 Consumables

HID Global provides a variety of secure consumables and accessories to optimize the performance of your HID FARGO HDP6600 printer/encoder

- **HDP® Ribbons and HDP Film:** High Definition Printing™ (HDP) ribbons and HDP Film combine to produce durable and tamper resistant cards with crisp 600 dpi images – even on the surface of technology cards.
- **PolyGuard™ LMX Overlaminates:** Utilizing HID Global's new wasteless PolyGuard LMX overlaminates, you can lower consumables costs by up to 40% while still getting the highest level of card coverage protection in the industry. From creating photo IDs and government credentials, to gift and loyalty cards, the HDP6600's patch placement consistency and rounded laminate corners ensure sharp, professional-looking cards every time. What's more - applying an overlaminate to your cards not only improves card durability and longevity; with an optional holographic design, overlaminates can also significantly increase card security. Overlaminates with standard or custom holograms create an ID card that is difficult to forge, yet easy to verify.
- **Cards:** Graphics-quality UltraCard™ cards feature polished, scratch- and debris-reduced surfaces to optimize the quality of your printed images.
- **Cleaning Materials:** Printhead cleaning swabs, interior cleaning cards and interior/exterior cleaning pads facilitate optimal print quality and ensure your printer is clear of dust, debris and build-up that can degrade printer performance over time.

*** HDP6600 printers/encoders are available in One Material or Two Material configurations. Both configurations include a Lamination Station 1. Only Two Material configurations include both a Lamination Station 1 and a Lamination Station 2. A One Material configuration will utilize only Lamination Station 1, while a Two Material configuration will utilize Lamination Stations 1 and 2. The One Material configuration can be used for dual-sided lamination if only one lamination material is desired on both sides of the card. The Two Material configuration can be used for single or dual-sided lamination and supports the application of two different lamination materials on each side of the card.

**** For information on additional accessories, please contact your dealer, integrator, or HID Sales Associate.

FARGO Card Printer/Encoders require highly specialized media to function properly. To maximize printed card quality and durability, printhead life and printer/encoder reliability, use only HID FARGO Consumables. HID warranties are void, where not prohibited by law, when non-HID Consumables are used.
