

# Verifone® P200 PIN pad

## CONVENIENT AND SECURE IN-BRANCH PIN SELECTION

- **Your card stays “top of wallet”** - Cards issued with customer-selected PINs are used more frequently.
- **Large graphic display** - A large, LCD graphic display promotes ease of use, reducing input errors.
- **Simple implementation** - Connectivity via USB promotes easy setup.
- **PCI certified** - The Verifone P200 PIN pad offers the security of the PCI PTS 5.X-approved standard, in full compliance with Payment Cards Industry (PCI) guidelines.

The Verifone P200 PIN pad offered by HID Global® enables cardholders to conveniently select their own PIN in the branch at the time of issuance, and is an essential component of a complete HID® TRISM™ Financial Instant Issuance (Fii) solution. The device securely links PIN selection to the card being issued in real time – ensuring cards are instantly activated and ready for use – a plus for your customer and your institution.
